Fresh'n Squeeze (MFJ)

For high-volume Grocery Stores looking to minimize labor without sacrificing quality, the MFJ is unparalleled. Its cold-pressed technology ensures that the maximum amount of juice is extracted with minimal effort, all while retaining the nutrients and enzymes that customers love.

S98 Automatic Citrus Juicer

The Ceado S98 is designed for environments where the personal touch in juice preparation is paramount. Its manual feed system allows for precise control over each fruit, ensuring optimal juice yield and flavor. This juicer is ideal for artisanal businesses that prioritize custom orders and a hands-on approach.

JM-20 Automatic Feed Juicer

The JM20 strikes a perfect balance between automation and manual control. With its automatic feed system, it reduces the labor intensity without compromising the quality of the juice. This makes the JM20 ideal for businesses that face medium-volume demand and seek to optimize staff time while still offering fresh, delicious citrus juices.

JM-20 Automatic Feed Juicer

The Ceado Drink Mixer M98 from Juicernet is the quintessential tool for expanding your offerings into the enticing world of frozen beverages. Engineered for excellence, the M98 combines versatility, efficiency, and unparalleled performance, making it an indispensable asset for any business aiming to delight and surprise its customers.
